Met Office Aberdeen Meteorologist's View
Sunshine through to mid-afternoon bringing the risk of sunburn.

Forecast for Monday 12 Sep 2022
Weather: Area of rain across all at first, with some heavier outbreaks possible in the south, clearing mid to late morning as a mix of brighter spells and well scattered and light showers feed from the northwest, with outbreaks focused across western ranges. Cloud and patchy rain extending from the north during the evening.

Maximum wind: Westerly mean 15-20 with gusts reaching 30mph across most exposed ridges and summits.

Chance of cloud-free hill tops above 800m: Initially 40% becoming by late morning 95% plus, before lowering again for evening.

Low cloud and visibility: Good or very good becoming moderate or poor in rain, very poor within cloud with bases initially extensive or broken from 500m, lifting and breaking by late morning, lowering again during the evening.

Temperature: **Glens:** Plus 9 Celsius rising 20 Celsius during the afternoon
At 800m: Plus 9 Celsius
Freezing level: Above summits
